

ImpactThon @KSV

2025 - 2026

Hackathon @Kadi Sarva Vishwavidyalaya

ImpactThon @KSV 2025-26

Rules & Guidelines for Participants and Mentors **Semi Final and Grand Finale : 30 – 31 January 2026**

What is ImpactThon @KSV 2025–26?

ImpactThon @KSV 2025–26 is an institution-level innovation and problem-solving competition designed to encourage KSV students to create impactful, technology-driven and research oriented solutions for real-world challenges. The event promotes creativity, innovation, teamwork, and prototype development through structured evaluation rounds. For details about KSV ImpactThon @KSV, students can visit MMPSRPC Website.

Who Can Participate in ImpactThon @KSV 2025–26?

All currently enrolled UG and PG students of Kadi Sarva Vishwavidyalaya (KSV) are eligible to participate. Teams may consist of students from the same or different institutes under KSV, and interdisciplinary participation is encouraged. The team must consist of minimum 2 and maximum 4 members. A participant can join only one team, and teams must nominate a **Team Leader and Co-Team Leader**.

Ethical Participation & Compliance Guidelines (Applicable Throughout the ImpactThon @KSV 2025-26)

- Teams must adhere to all rules, instructions, and deadlines issued by the organizing committee.
- Ethical conduct, originality, and academic integrity must be maintained at all times.
- Only one idea must be submitted per team, and multiple submissions are not allowed; the idea must be original and aligned with one of the tracks provided.
- Once the Screening Round is completed, no changes to team members or faculty mentors are permitted.
- Registration details must be accurate and truthful; misleading information may result in disqualification.
- All selected student team members after the screening process must be physically present at KSV for further rounds.
- Screening Round is online, whereas the Semi-final and Grand Finale are offline at KSV.

- Approximately 10 hours of implementation time will be allotted during the Semi-final and Grand Finale.
- Organizing committee decisions are final and binding at all stages.
- Winning teams will receive a **winning amount**, and all participants will receive certificates.
- Both the Semifinal and Grand Finale rounds are **scheduled on 30–31 January 2026**.

What are Problem Statements and Themes?

Interested students may choose their own idea, provided it aligns with one of the tracks listed under ImpactThon @KSV 2025–26. To submit the idea, students must use the provided PPT format.

Track 1: Inclusive & Human-Centered Innovation

Objective: Ensuring technology benefits everyone by empowering people and democratizing access.

- Technologies for accessible education and skill development
- Tools and devices for differently-abled communities
- Energy inclusion and accessibility solutions
- Inclusive language and communication technologies (regional/local languages)
- Workforce reskilling and future-ready job solutions
- Healthcare equity (early disease detection, affordable diagnostics, telehealth)

Track 2: Safe, Trusted & Responsible Technology

Objective: Building systems that are ethical, transparent, safe, and resilient..

- Bias detection and fairness in decision-making systems
- Privacy-preserving and secure data management
- Transparent and explainable decision-support tools
- Cyber resilience and digital trust frameworks
- Responsible technology governance and compliance practices
- Communication security and embedded system reliability (IoT and networks)
- Reliability and safety in industrial automation and robotics

Track 3: Technology for Social Good & Sustainable Progress

Objective: Applying engineering solutions to address pressing challenges for people and the planet.

- Agriculture (smart farming, crop yield prediction, water management)
- Climate change (disaster prediction, renewable energy optimization, Air Pollution Prediction)
- Urban development (smart cities, traffic management, pollution control, Road Condition)
- Social welfare (fraud detection in welfare schemes, citizen grievance redressal)

How to Participate in ImpactThon @KSV 2025–26?

Teams must form a group with a minimum of 2 and a maximum of 4 members and select one problem statement of their choice. They should prepare their idea in the prescribed format and submit it online through the provided Google link before the deadline. After submission, teams must participate in the Online Screening Round. Shortlisted teams will then compete for further rounds, which will be conducted offline at KSV. All selected student team members must be physically present during the offline rounds.

What is the Format for Submitting the Proposal?

1. Each team must submit:

- a. Team Details
- b. Team Name
- c. Team Leader and Co-Team Leader
- d. Details of all team members
- e. Guide Authorization letter

2. Idea Submission File must include:

- a. Team ID
- b. Track Number
- c. Track Name
- d. Problem Definition
- e. Proposed Solution
- f. Technology Stack
- g. Potential Impact

3. Supporting Files:

- a. PPT (Prescribed Format)
- b. Demo Video (Max 2 minutes)
- c. Prototype/solution demo (as applicable)

4. Code Submission:

Students must upload the fully documented code to Google Drive and submit a GitHub repository link containing the complete code. Both the Google Drive and GitHub repository must include a README/Project Information file, which should contain the following details:

- a. Team ID
- b. Track Number
- c. Track Name

- d. Problem Definition
- e. Technology Stack
- f. Implementation Details
- g. Team Member Information
- h. Files must follow naming conventions, and all links must be accessible.

Selection Process

a. Call for Participation

- Teams must first register along with their mentor using the official Google registration link. [Registration ImpactThon @KSV 2025-26](#)
- Teams must then submit their idea along with a guide approval letter. [Guide Authorization Letter](#)
- After registration, teams must choose their idea that must align with one of the provided tracks and fill the form of [Idea submission](#) (This form will start accepting idea submissions after the registration phase gets completed)

b. Screening Round (Online)

- All submitted ideas will be evaluated based on originality, relevance, and completeness.
- Incomplete or plagiarized submissions will be disqualified.
- Selected teams will move forward to the Semifinal Round.

c. Semifinal Round (Offline at KSV)

- Shortlisted teams will present their ideas and early-stage prototypes.
- Evaluation criteria include feasibility, innovation, and potential impact.
- Top-performing teams from each track will proceed to the Grand Finale.

d. Grand Finale Round (Offline at KSV)

- Finalists will present their working prototypes, presentations, and demo videos.
- Evaluation will be based on innovation, functionality, design, scalability, and presentation quality.

e. Winner Details (Total 15 Winning Teams: 3 Tracks × 5 Teams per Track)

- Team 1: ₹50,000 **Winning Amount** + ₹50,000 #
- Team 2: ₹40,000 **Winning Amount** + ₹40,000 #
- Team 3: ₹30,000 **Winning Amount** + ₹30,000 #
- Team 4: ₹20,000 **Winning Amount** + ₹20,000 #
- Team 5: ₹10,000 **Winning Amount** + ₹10,000 #

The mentioned amount would be sanctioned by M.M. Patel Students Research Project Cell (MMPSRPC), KSV, to be utilized for research as per the guidelines (Rules & Regulations of MMPSRPC)

Why should you participate in ImpactThon @KSV 2025–26?

Participation in KSV ImpactThon @KSV provides:

- A structured innovation process
- Exposure to real evaluation rounds like Screening, Semifinal & Finale.
- Experience in rapid prototyping (~10 hours of development during rounds)
- Opportunity to present to expert juries.
- Skill enhancement in problem-solving, teamwork, and presentation recognition at institutional level.
- Networking opportunities with experts from industry and academia.

Why should you participate in ImpactThon @KSV 2025–26?

Participation in ImpactThon @KSV provides students with a structured innovation process and exposure to real evaluation stages such as the Screening, Semifinal, and Grand Finale rounds. It offers hands-on experience in rapid prototyping with approximately 10 hours of focused development during the event. Participants also get the opportunity to present their ideas and prototypes before expert juries, enhancing their skills in problem-solving, teamwork, and presentation. Overall, the event offers significant recognition at the institutional level, making it a valuable learning and growth experience.

Whom to contact?

Participants may contact their respective institute's MMPSRPC Coordinator or the ImpactThon @KSV email ID for any guidance or queries. All official updates and information will be shared through the registered email IDs and the MMPSRPC ImpactThon @KSV website.

Project Guide Guidelines

What is the role of a Project Guide in ImpactThon @KSV 2025–26?

A Project Guide supports a maximum of four teams throughout the ImpactThon @KSV by helping them understand the problem, refine their ideas, and stay aligned with the ImpactThon @KSV themes. The Project Guide encourages innovation, teamwork, and constructive problem-solving but does not perform coding or project work for the team.

The Project Guide must ensure that the team's ideas are original and free from plagiarism. Their guidance should focus on conceptual clarity, solution feasibility, and presentation quality. They must promote ethical development practices and ensure that all project work is completed solely by the students. They also help teams plan timelines, milestones, and prepare for evaluation stages.

During the ImpactThon @KSV, the Project Guide may provide constructive feedback, answer doubts, and support the team in improving their work without directly contributing to coding or implementation.
